FOREWORD

*History*¹

This comprises the codification of the ordinances of Frazer Township. The history of Frazer Township is linked to many other areas which surround it.

The creation of Deer Township in 1796 took in an area that extended from Bull Creek to the east, to the Allegheny River west and south and Butler County to the north. (See Map No. 1). As formed in 1805, the northern boundary of Indiana Township extended eastward to the mouth of Bull Creek and cut away more than half of the Deer territory. (See Map No. 2). The territory of Deer, as thus reduced, was divided in 1836 under the names of East and West Deer. Later the same year, East Deer was enlarged by the annexation of that part of the south of the northern line of Indiana. It included Springdale Township, Fawn Township, and Harrison Township. (See Map Nos. 3 and 4).

By 1842, the size of East Deer Township was reduced by the formation of Tarentum and Fawn Township (Map No. 5) and further diminished by carving out Springdale Township in 1875 (Map No. 6). By this time the population of the East Deer territory had grown to 1,390 and was later reduced to 1,253 by 1880.

Frazer Township was incorporated on September 9, 1914, from territory formerly included in East Deer Township (Map No. 7). The area of Frazer Township was and still is 6,797 acres. The break with East Deer Township came as an agricultural split from the more settled area. The agricultural interests of the people residing in Frazer Township ran opposite to the matters of importance to the East Deer Township residents.

In 1920, the Township of Frazer was established. It was named after the Honorable Robert S. Frazer, a Justice of the Pennsylvania Supreme Court. Coal mining and its varied activities had been responsible for the population in the early 1900's, but since coal peaked out, the growth of the community has not kept pace with comparable townships according to recent population figures. The Township's population was 1,887 in 1970 and 1,388 according to the last census. Frazer Township is a second class township.

It is believed that the first settler in the area was Ezekiel Day. He probably came in 1792, and in 1793 built a cabin and made some improvements. Day's Run was named for him. Reverend Abraham Boyd purchased a tract from Mr. Day and resided there many years. He was a pastor of several churches in the vicinity. He left very interesting memoranda of marriage ceremonies performed by him during his long residence in Allegheny County and the dates of each.

Rumors of the murder of a family in the territory by Indians in 1795 and 1796 have been advanced, but no conclusive proof has ever been uncovered.

Joseph Crawford lived near the mouth of Crawford's Run, which took its name from him. Of his descendants, the Kennedys still remain in the area. Robert Bailey settled on what is known as Bailey's Run Road. Mr. Bailey himself lived there beyond

¹Editor's Note: This history of Frazer Township was adapted from the *Frazer Township Bicentennial Booklet*.

the age of 84. James Humes was a settler near the present line between East Deer Township and Tarentum. The place is known as Humes farm, and several of his descendants reside in this vicinity. His wife was a daughter of Mr. Negley. Samuel and James Powell were squatters adjoining farms near Crawford's Run but none of their descendants are here. Solomon Kelsey came prior to 1840, and settled near the Bailey property. James Robertson came to the same place soon afterward. Elias Davis and Start resided some two miles up Bailey's Run. They were followed by John Ross. Fred Christ lived on a farm adjoining Mr. Bailey. The widow of his son Fred resided in Fawn Township. Jesse Brown resided two miles up Bailey's Run, on a portion of the stream which still retains the name of Day's Run. The place was later owned by James Wilson. J.C. Brown, a son of Jesse, was Prothonotary of Allegheny County for two terms.

Derek Peterson, a Virginian, was one of the original settlers in East Deer Township. He took up a large quantity of land here from which he received patents from the State. Sproule settled in the upper part of East Deer Township where he died. Samuel Kier succeeded Sproule on the same property. It is worthwhile to note that the first petroleum in this region was discovered while drilling for salt on this property and was accordingly called Kier's Petroleum or Rock Oil.

Frazer Township's most dominant features are the many streams and valleys traversing the Township in a generally east-west direction. The overall topography of the Township ranges between 800 and 1,300 feet above sea level. The numerous streams and creeks that permeate the area have been grouped under four watershed areas: Bull Creek, Little Deer Creek, Tawney Run, and the Allegheny River. They have influenced the overall development of the Township.

By 1946, Frazer Township and East Deer formed the Edfra School District (Map No. 8). This unit remained in tact until the formation of the Deer Lakes School District in 1969, including West Deer, East Deer and Frazer Townships.

Prior to July 2005 Frazer Township lacked the selected services and retail trade activities which substantiate rural character and depended upon the urban retail trade centers for its needs. During that time there was a limited number of retail activities and home occupation outlets, which satisfied only selected needs and could not provide for the bulk of the Township's needs.

In July 2005 the commercial and retail dynamics of Frazer Township changed with the initial opening of the Pittsburgh Mills Development located adjacent to State Route 28 and Butler Logan Road in the Township. The Pittsburgh Mills Development includes a variety of retail, commercial and entertainment destinations dominated by the Galleria at Pittsburgh Mills, a 1.1 million square foot enclosed mall. The Pittsburgh Mills Development also includes ancillary commercial development of over 600,000 square feet

Frazer Township has one of the most essential natural resources; that is, a good labor force. Primarily a residential community with very little commercial and no industrial activity, Frazer Township serves as a labor source for the Upper Allegheny River Area for manufacturing, mining, and farming.

The Township has changed through the years, but it still remains a peaceful and beautiful place to live. The Township intends to balance recent commercial development in order to maintain its residential and rural character.

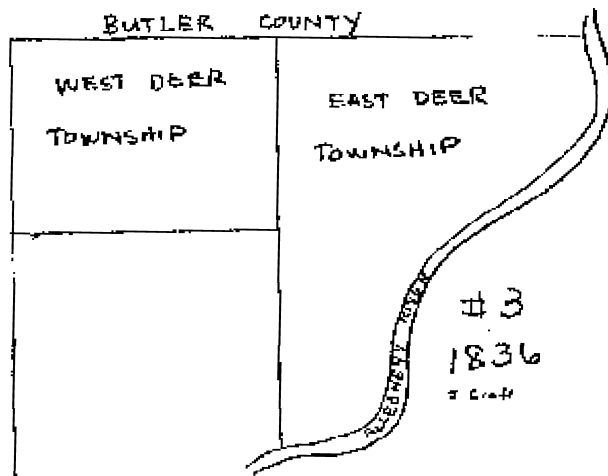

The Frazer Township Code of Ordinances was prepared by Keystate Publishers, Inc., and adopted by the Frazer Township Board of Supervisors on July 5, 2005, by Ordinance Number 137.

Organization

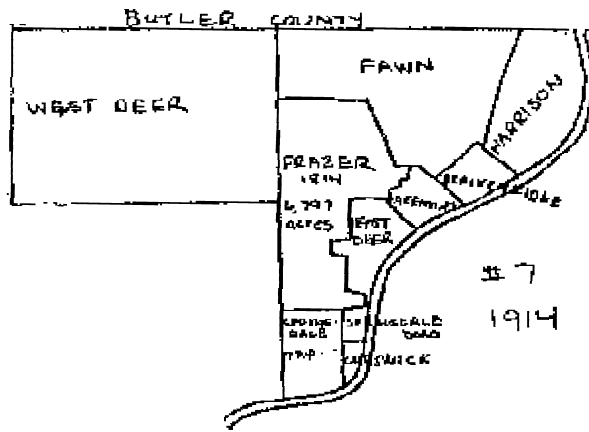

The Code contains four parts which are (1) the valid current ordinances of the Frazer Township contained in Chapters 1 through 27, (2) the Appendix, which lists by abstracted title all ordinances of a temporary or "one time" nature, (3) the Key to the disposition of each ordinance ever enacted by Frazer Township, and (4) the Index, which is an alphabetical arrangement of subjects.

In the Code each Chapter is separated by a divider tab, and specific ordinances can be located by subject on the contents page at the beginning of each Chapter. The Index may also be used to search for a subject when one is looking for general information on a particular subject, or if it is not known in which Chapter the subject might be found. The Appendix consists of several general categories containing a chronological listing of short subject descriptions along with a reference to the original ordinance and its date of enactment, if known.

The Key to disposition indicates what action has been taken by the Frazer Township Board of Supervisors with regard to every ordinance ever enacted. An ordinance has either been (1) specifically repealed, (2) superseded by another ordinance, (3) is located in a Chapter of the Code book, or (4) is located in the Appendix. Annual tax rate and budget ordinances are located only in the Key. The Key is a cross reference to the original ordinance books of Frazer Township, and to the location within the Code of each ordinance by number.
